Safe Touches

Personal Safety Training for Children

The New York Society for the Prevention of Cruelty to Children is pleased to introduce our sexual abuse prevention workshop entitled *Safe Touches*. This workshop is tailored for children in kindergarten through third grade. *Safe Touches* will teach body safety and the difference between safe and unsafe touches by using age appropriate language and puppets.

SAFE TOUCHES

Personal Safety Training for Children

- A one-time, 50 minute group presentation
- Conducted in the elementary schools throughout New York City
- Developed for children in kindergarten through third grade

The workshop is designed to:

- Provide information on the difference between safe and unsafe touches through the use of puppets and skits
- Help children understand what body parts are considered private
- Teach children how to seek help if they feel unsafe or confused
- Teach children assertive language skills

To arrange a workshop at your school contact the group coordinator at 212-233-5500 ext. 211
